

REMARKS

In response to the Office Action (double patenting) dated August 6, 2009, Claims 1-4, 6 and 32 remain in the application. *Although the claims have not been amended, applicants have included with their response a complete claim listing in order to provide the most up-to-date set of claims as a courtesy to the examiner.*

Claims 1-4, 6 and 32 were rejected under double patenting.

Double Patenting

Claims 1-4, 6 and 32 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-64 of U.S. Patent No. 7,223,676.

Applicants submit herewith a Terminal Disclaimer to obviate the double patenting rejection over U.S. Patent No. 7,223,676.

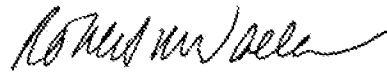

Summary

In view of the foregoing correction, it is felt that the rejection of the claims under double patenting have been overcome. In summary, all of the pending claims are now patentable and allowance at the earliest opportunity is respectfully requested.

If the Examiner believes that there are any unresolved issues requiring adverse final action in any of the claims now pending in the application, the Examiner should

telephone Robert Wallace at (805) 644-4035 so that appropriate arrangements can be made for resolving such issues as expeditiously as possible.

Respectfully submitted,

Dated: August 24, 2009
